## EDUCATIONAL BACKGROUND

### B.Tech Mechanical Engineering

SRM Institute of Science and Technology, Chennai 74.56%

July 2017 - May 2021

## WORK EXPERIENCE

### Full Stack Developer

Freelancer, Bangalore

July 2023 - Present

- **Project Experience:** Developed and deployed web applications for clients across various industries
- **Full Stack Proficiency:** Demonstrated proficiency in both frontend and backend development, utilizing technologies like Node.js and Express.js for backend logic and RESTful API development.
- **Client Collaboration:** Regularly provided progress updates and incorporated client feedback to ensure project alignment with expectations.
- **Problem-Solving Skills:** Identified and addressed technical challenges and bugs in a timely manner, ensuring smooth project execution and delivery.
- **Portfolio Development:** Maintained an updated portfolio showcasing completed projects, technical skills, and client testimonials to demonstrate expertise and credibility as a freelance full stack developer.

### System Engineer

Tata Consultancy Service (TCS), Bangalore

May 2022 - June 2023

- **Project Contributions:** Implemented responsive designs using HTML, CSS, and JavaScript frameworks to ensure optimal user experience across devices.
- **Technology Stack Familiarity:** Gained proficiency in frontend technologies such as React.js and backend technologies including Node.js and Express.js.
- **Collaboration and Learning:** Actively participated in knowledge-sharing sessions and workshops to expand expertise in full-stack development and emerging technologies.
- **Problem-Solving Skills:** Successfully resolved frontend layout issues and backend logic bugs, demonstrating problem-solving abilities and attention to detail.
- **Documentation and Reporting:** Maintained comprehensive documentation of project requirements, design specifications, and development processes.
- **Professional Development Activities:** Engaged in self-directed learning activities, such as online courses and tutorials, to expand knowledge of full stack development principles and technologies.

Technologies  
Stack

Python, Basic Java  
HTML, CSS, JavaScript, React js, MongoDB, Node.js, Express js and Flutter  
MERN

## PROJECTS

### Voyage Mingle mern stack

[https://github.com/sowravraj/Voyage\\_Mingle](https://github.com/sowravraj/Voyage_Mingle)

The "VoyageMingle" project is an innovative platform designed to transform the travel experience by connecting individuals with shared interests and destinations. Unlike traditional travel platforms that focus on traveling with friends or family, VoyageMingle introduces a new concept of traveling with strangers. By leveraging advanced matching algorithms and personalized preferences, VoyageMingle helps users find like-minded travelers who share similar interests, hobbies, and travel preferences.

## HONORS & AWARDS

---

### **Performance Award** *March 2023*

Assisting junior team members in enhancing their skills and progressing in their professional journeys through mentorship and guidance.
